

HYLOMAR®

ADVANCED FORMULATION

AF + AFHV

Solvent free HYLOMAR

- Wide operating temperature range (-50 to +250°C)
- Resistant to oil, fuel and most automotive fluids
- Can be used as a flange sealant or gasket dressing
- OEM approved
- Suitable for automated application
- Easy to use
- Unlimited assembly time
- No gap filling – metal to metal contact
- Simple disassembly
- Excellent resistance to vibration, shock and differential thermal expansion
- Currently used on cylinder liners, cylinder cam caps, electric motor end plate covers and fuel injector gland nuts

Pack sizes – 85g tubes, 250ml brush top tin, 300ml cartridge
